Enjoy ELPHINSTONE REEF, for experienced divers

One of the ten most beautiful dives in the world, just a few miles away from Marsa Alam, Elphinstone is a 375 m long, off-shore reef with drop-offs descending to over 100 m. The site features an abundance of soft corals and almost every kind of sea life can be seen here. The reef is angled slightly to the north, which causes a constant current over the northern and southern plateaus. These plateaus are an ideal location to catch a glimpse of different shark species like Oceanic White Tip, Scalloped Hammerhead, and more. You can also meet Mantas during March and April.

At least 50 dives and advanced certification are required.

- 1 dive (speedboat) - extra € 35,00
- 2 dive (full day - barca) - extra € 50,00
